

Electric Boat Management Association **2020 Management Development Series**

Six Thinking Hats

Through this workshop we will review the various functionalities of the Six Thinking Hats and how to properly apply them throughout Electric Boat. Following the system designed by Edward de Bono, we will discuss the art of lateral thinking which can be used to improved team and individual thinking processes for more efficient and thorough solutions.

Topics To Be Covered Are: Learning to think; The Six Thinking Hats; Pit-falls of the system; Uses at Electric Boat; Team/Individual Success

Presented by:
Michael Adamson

Michael Adamson is a former Submariner who served as Nuclear Machinist Mate for 10 years. Michael developed his passion for teaching during his role as lead instructor for Nuclear Machinist Mates at the New London Submarine School. He earned a Bachelor of Science in Psychology in 2016 and is currently working toward a Master of Science focused on Industrial / Organization Psychology.

If you are interested in signing up for this workshop, please email ebmamd@gdeb.com. You will be put on a waitlist and notified if you get into the workshop via a calendar invite for the seminar.

Please contact Giana DiCarlo (EBMA – Management Development Director) at ebmamd@gdeb.com or 860-433-8037 with any additional questions.
