

2021 Candidate for EBMA Board of Directors

Danielle Lorene Chevalier
Program Representative- Specialist
Strategic Sourcing Program Office
D.335- Strategic Sourcing Program Office
Joined Electric Boat – June, 2016

Danielle joined Electric Boat in June 2016 as a process improvement engineer in D.670. She supported strategic improvement in materials, operations, and finance. In August 2017 she transferred to EBQP fulltime as a process engineer in D.955. While in D.955 she focused on improving efficiency in QP warehousing, materials, and operations. In August 2018 she certified as a Lean Six Sigma (LSS) Black Belt at Electric Boat and mentored four other process engineers to reach LSS Black Belt and Green Belt certification.

In July 2020 she transferred to the Strategic Sourcing Program Office and supports efforts to prepare EB's supply base for upcoming work.

When she isn't working Danielle enjoys volunteering at her local church, running half marathons, hot yoga, and true crime podcasts. She also started exploring local hiking spots as a COVID-19 hobby. Danielle is originally from Lebanon, PA, a small town outside of Hershey. She graduated from the University at Buffalo in May 2016 with a bachelors in industrial engineering.

Danielle enjoys the outside learning and networking that EBMA has to offer and is excited to continue her involvement with this organization.
