

Jeffrey C. Zoglio

Electric Boat Management Association

2021 Board of Directors Candidate

Jeffrey C. Zoglio
D323 - Supplier Quality Analyst Senior
Joined Electric Boat – February 2002

Jeffrey joined Electric Boat in February of 2002 as an Outside Electrician. (At that time there was only section 5 of the 774 and the 23 boat sitting in the 260 building.) Having watched his father rise to the rank of Colonel (Ret.). Not being able to join the military himself due to a medical condition, Jeff found that Electric Boat was a way in which he could contribute to our national defense. Having previous construction experience he was promoted to supervisor shortly thereafter. Much of his time here at EB has been in salaried roles including Change Control Analyst in D650, and several supervisory positions in Operations. Jeff has a degree from New England Institute of Technology and is a certified Green Belt and has a strong commitment to volunteerism as he has been a member of the Westerly Ambulance Corp., the Westerly Police Reserves, and the Westerly Fire Department, Pack leader for the Cub Scouts pack 1 in Richmond R.I. and an assistant coach for the Westerly Girls Softball team. Jeff also served on the Zoning Commission for the town of Groton and was a member of the Seal Rescue Team at Mystic Aquarium.

Jeff is married with two children and two grandchildren, three dogs and two cats (all rescues) and as much as Jeff gives of his time he also likes to fish and kayak on his down time, enjoying time with his wife and animals.
